

CARRIER NEUTRAL

Your business, your choice.

BENEFITS OF CARRIER NEUTRAL INTERCONNECTION

Whether the end user is a customer, partner or an employee, your system's performance significantly shapes user experience. With over 20+ carriers in-house, we help you customize your connectivity needs to best fit your business.

CARRIER NEUTRAL ENVIRONMENT	DIRECT ACCESS	NETWORK REDUNDANCY
<p>Our true carrier-neutral colocation environment can enable your business to deliver content, terminate your voice traffic, access public IP or launch new product offerings on-demand. We put you in contact with the partners and services you need in order to make your operations work at peak performance.</p>	<p>ColoHouse Meet Me Room access, to more than 20 on-net carriers, supports a resilient internet connection. Our offering suits a range of connectivity requests – whether you are seeking traditional network services, redundant connectivity or require a tailored solution.</p>	<p>ColoHouse offers single connections for traditional connectivity or fully-redundant connections for mission-critical applications. Carrier diversity is important because without highly reliable and redundant network connectivity, IT performance is likely to suffer.</p>

CHOOSE YOUR CARRIER

ColoHouse interconnects a variety of telecom and technology companies, from VoIP startups to leading global Tier 1 Internet Service Providers (ISP's) – we work hard to support the network requirements of our global customer base.
